The Blue Letter

November 17, 2023

Honorable Mayor & Esteemed City Councilmembers:

Employee of the Year Award: Congratulations to Inspector Chris Mastrino and Facilities Superintendent Rudy Wells who will receive the 2023 Employee of Year Award on Monday. I have included the letter of recommendation from Director Steve Clark and Director Rob Cron.

Messrs. Mastrino and Wells earned this recognition by providing exceptional public service to the residents of Vandalia throughout the \$8.9 million facilities infrastructure project. This project included extensive assessment, research, engineering, construction, management, and troubleshooting in the Justice Center, Municipal Building, Bruce Sucher Vandalia Recreation Center, Senior Center, Parks Maintenance Building, and Sports Complex, *et al.* The work ranged from commercial heating, ventilation, air conditioning, duct cleaning, demolition, removal of superfluous equipment, energy efficiency upgrades, window screening, the exterior lighting on the Justice Center, mechanicals, controls, repairs, and various types of roof replacements. It spanned to include the value-added light up street signs, and light poles that were added to the Sports Complex walking path. In the case of the Justice Center and the Recreation Center – the roofs and mechanicals were original to the buildings. The air handler was 50 years old in the municipal building. The roof was leaking above the basketball court, the air handling system never quite worked as designed in the aquatics center, and our Public Safety Specialists were dispatching in a communications center that was 95 degrees in July 2021 because roof top units kept failing.

As staff, we are thankful for the City Council's investment in the maintenance of our facilities, and we are thankful for Chris and Rudy's work product over the last 2.5 years. Throughout this project, Messrs. Wells and Mastrino have worked through fine details to leverage savings and to ensure that the City of Vandalia got the best deal, the best service, and the most appropriate equipment with budget limitations in mind. They exhibited active and on-the-job learning that I hope that my teammates recognize as a model to emulate.

This project was extremely detailed and complicated as it spanned many City departments and facilities. Mr. Mastrino and Mr. Wells accepted and welcomed ownership of tough problems, while providing solutions in support of our fellow public servants. They managed and represented the City in this organization-wide project – and it was easy to have complete confidence in them the entire time because of their commitment to succeeding. They have embodied the spirit of being a top-tier suburb through top-tier municipal services by protecting the public's investment in our facilities. Mr. Mastrino and Mr. Wells leveraged the expertise of the Energy Savings Group – make no mistake – they did not just blindly hand over this low frequency, high risk, high expense project to a third party and walk away. Mr. Mastrino and Mr. Wells – along with departmental staff and our teammates in Development and Engineering Services and Parks and Recreation, and many departments went through product specifications line by line.

There are people who would say that this facilities infrastructure project is not glamorous – they would be right. These gentlemen perform at a level 10 when no one is watching because that's how they serve and that's who they really are.

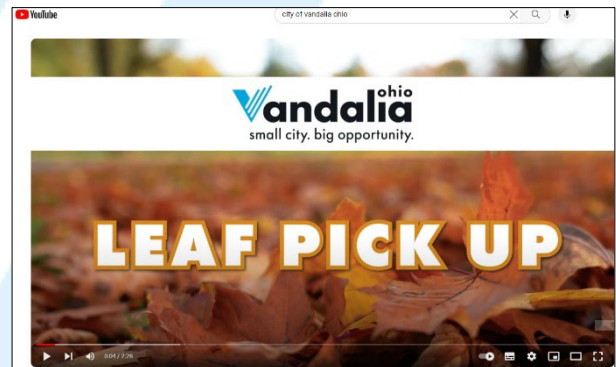

Having a well-maintained facility is easy to take for granted and the cost is dear when we line it up against core operations that are more visible to the public during budget time. This project was purposeful. This project was urgent. This project was important. These gentlemen have tackled a hard, complicated, and esoteric project that needed to be done, in support of our entire City organization. In fact, in working to enhance our infrastructure and efficiencies, they worked with ESG and LJB to develop a citywide facilities maintenance plan so that we can better forecast capital needs and timelines to prevent the need for this type of expansive project again. The service of Mr. Wells and Mr. Mastrino over the course of this multi-year project goes above and beyond their job descriptions. There is no doubt that we are in a better position to serve our residents, corporate citizens, and visitors because of their efforts. I am proud to serve with these gentlemen. Congratulations.

Items on this evening's Council Meeting agenda

Resolution: CSX-Bike Path Right of Way - We have reached settlement agreements with all property owners needed for the Right of Way acquisition to accommodate the Vandalia Bikeway Connector project except CSX Railroad. Our Right of Way consultant performed property appraisals of all properties in question, which were reviewed by a third party and fair market valuations were given to the right of way requested. They were able to reach reasonable agreements with all property owners except CSX. For us to move forward and acquire the easement through appropriations we are required to approve a resolution for the "Intent to Appropriate" so we can move forward with the acquisition. To keep the project on schedule the right of way has to be certified in January through ODOT. So, I am requesting that we approve the resolution for the Intent to Appropriate this evening.

Resolution: 2023 Motorola Solutions Spillman Maintenance - Vandalia Division of Police purchased the Motorola Solutions Spillman software package in 2018 for our Computer-Aided Dispatch (CAD), Records Management System (RMS), and mobile report-writing. The Spillman software is utilized for electronic criminal offense reports, evidence management, traffic crash reports, statistical data, crime tracking, and records management. The 2023 annual service and maintenance agreement is \$50,678.88. VPD budgeted \$52,965.00 for this annual maintenance agreement. Motorola Solutions continues to provide updates to the software and support that could not be provided by a third-party vendor. I request that competitive bidding be waived, and we continue to contract with Motorola Solutions to provide maintenance and service for the Spillman software.

Monday, December 4, 2023:

Resolution: Sports Complex Fence - The Parks & Recreation Department solicited proposals for a ballfield fence replacement project at the Sports Complex. Four (4) fence companies submitted formal proposals with Quality Lawn, Landscape & Fence, Inc. of Casstown Ohio providing the overall best proposal of \$49,145. The proposal includes replacement of backstop, sideline and dugout fencing on fields #9 & #10 at the Sports Complex with 9-gauge black vinyl coated chain link fence fabric and all necessary equipment, supplies and labor necessary to complete the project. This is phase 4 in the ballfield fence replacement plan with phase 1 being completed in 2017, phase 2 in 2019 and phase 3 in 2022. The capital improvement budget has \$40,000 appropriated for this project. Parks and Recreation is recommending the balance of funds required to complete the project come from current balances in the capital project budget funds.

Resolution: Municipal Building Parking Lot – The Parks & Recreation Department solicited bids for a parking lot maintenance project at the Municipal Building. Four (4) asphalt companies submitted formal bids with Neyra Paving of Cincinnati, Ohio providing the overall lowest and best bid of \$53,242. The proposal includes repairs, milling, paving, crack fill, and striping of the parking lots at the Municipal Building including all necessary equipment, supplies and labor

necessary to complete the project. The capital improvement budget has \$59,000 available for this project. The project has a completion date of August 30, 2024.

Ordinance 23-29: Amending Chapter 208, Purchasing, of the Codified Ordinances of the City Of Vandalia – This ordinance was brought before the City Council for consideration at the spring council retreat on May 15, 2023. It was subsequently brought to a study session in June 2023 and then it was tabled in its first reading in July. The amendments were considered by the City Council during the fall retreat on September 11, 2023. The item was tabled at the last City Council meeting and is presented for discussion in the Study Session. As proposed, the amendment would include the following:

- Permit informal bidding for purchases that are less than or equal to \$25,000 – while the current threshold is \$10,000.
- Permit informal bidding for purchases after advising the City Council of purchases greater than \$25,000 but less than \$50,000 – while the current threshold is the range of \$10,001 - \$24,999.
- Permit formal bidding for purchases of \$50,000 or more – while the current threshold is equal to or greater than \$25,000.
 - Note: the State of Ohio has increased the formal bidding threshold for statutory municipalities from \$50,000 to greater than or equal to \$75,000 with annual escalators of 3% subject to approval by the Director of Commerce.
- Account for the role of public and private cooperative purchasing programs.
- Reduce the requirement for waiving formal bidding by affirmative vote from five Councilmembers to four Councilmembers.
- Formally legislate, document the practice, and affirm the authority of the city manager to make emergency purchases of more than \$25,000 without prior notice to Council or being authorized or directed by Council as an emergency measure due to it being necessary, in the opinion of the city manager, to provide for the continued protection of the public peace, health, safety and welfare, and for reasons relating to the good order of the organization and maintaining continuity of operations. This language is aligns with the emergency ordinance language that is used in the State of Ohio for emergency legislation.
 - Here are recent examples of emergency purchases that have been authorized by the city manager include but are not limited to:
 - Purchases in response to the Christmas Day flood of the Justic Center to maintain continuity of services and remediation services to prevent further loss;
 - Rooftop air conditioning units servicing the Police Dispatch Communications Center;
 - Temporary repairs after a sanitary sewer collapse;
 - Purchasing replacement pumps and equipment that would otherwise necessitate a shutdown (and foregone revenues) of the Aquatic Center or Cassel Hills Pool;
 - Emergency repairs to fire apparatus;
 - Emergency roof repairs to prevent water infiltration above the basketball court at the Vandalia Recreation Center.
 - Other potential emergency purchases that we hope we never need but may include and not be limited to:
 - Traditional public emergencies;
 - Emergency roadway or bridge deck repairs;
 - Natural disaster response; and
 - Purchases necessary in response to a mass casualty event; and
 - Other unforeseen emergencies.

- This provision is meant to document the current and long-established practice of the city manager making rare emergency purchases and then advising the City Council after the fact.
- This provision is meant to be used rarely and sparingly.
- This provision is not meant to and cannot be used to obviate appropriations, which are the responsibility of the legislative body.
- As the chief executive officer and public safety director of the City of Vandalia, the city manager is able to prudently and objectively identify the need for an emergency purchase.
- Establish by ordinance the guidance that the city manager shall advise the Council of emergency purchases exceeding twenty-five thousand dollars (\$25,000).
- Increase the threshold regarding the city manager's discretion of whether to require bid bonds for contracts from \$25,000 to \$50,000.

Whether working with internal or external groups, both look to find the best outcome for all involved and truly exemplifies the core values of the City. Both have, and continue to take, an active role in the success of the entire project.

The City expected to achieve the following goals and objectives by entering into a project with Energy Systems Group :

Vandalia City Manager Recognized as Business Professional of the Year

Vandalia City Manager Dan Wendt has been named the 2023 Business Professional of the Year by the Vandalia-Butler Chamber of Commerce. Wendt received the award at the October 24 Vandalia-Butler Chamber of Commerce Honors Banquet.

"Dan received several nominations from Chamber members who have been impressed with his ability to unite community members and achieve great things," said Nick Kavalauskas, Chamber of Commerce Director. "In the time he's been in Vandalia, he's made quite an impact."

The Business Professional of the Year award is intended to recognize contributions by a business professional in the Vandalia / Butler Township business community. The award each year honors an individual whose service, volunteerism and goodwill have markedly improved the community.

In his tenure, Wendt and his staff have procured more than \$15.5 million in grants, donations, and other external funding for City projects. He has worked with the Vandalia City Council to initiate a downtown market study; to administer a small business relief grant program; to establish the City's Job Creation and Revitalization Program; to abate blight through the demolition of dilapidated properties; and to create non-school tax increment financing districts that are expected to generate more than \$93 million for roads and infrastructure.

Wendt enjoys playing with his three children, hunting, fishing, and home improvement projects. He and his wife, Laura are proud to be residents of Vandalia with tiny Aviators in the school district.

A sizeable crowd showed up to help Parks and Recreation cut the ribbon on the new playground unit at Helke Park.

On the cover

Helke Park Ribbon Cutting Ceremony

Kids of all ages in Vandalia know that playtime is the best time! With two new playgrounds open for business, this might be the best time ever to be a kid!

In September, City officials and residents gathered at Helke Park to cut the ribbon on the first new playground there in 23 years. The playground has many of the features you would expect in a playground, plus a few you may not.

"Our goal from the very beginning was to make this an inviting and inclusive playground where kids of all abilities could play and have fun," said Dan Wendt, Vandalia City Manager. "The first thing we did was assemble a committee comprised of residents and City staff, plus representatives from the Vandalia-Butler School District, the Montgomery County Board of Developmental Disabilities, and the Miami Valley Down Syndrome Association."

The committee considered the types of playground features that would allow as many differently-abled children as possible to be able to use. Some of those features include tactile features, a communication board so that non-verbal children can express themselves, and a soft and forgiving turf surface that is easy for wheelchairs to access.

Wheelchair-accessible picnic tables were also added to the nearby shelter.

In October the ribbon was cut on a new playground at the Vandalia Sports Complex. While the playground is dramatically different from the one at Helke, the accessibility features are the same. The Sports Complex playground also has a communication board and wheelchair-friendly turf. It also has a wheelchair-accessible merry-go-round.

Both units were funded primarily through the American Rescue Plan Act (ARPA) with additional funding from the a Montgomery County Community Development Block Grant. Approximately 21% of the \$750,000 project was paid with local funds.

Parks and Recreation Director Steve Clark said playtime is very important to the developmental needs of children. "Play is not only fun, but it's also an essential part of a child's development and critical for the successful growth of both the brain and the body." He said. "Playgrounds offer a unique opportunity to support a child's cognitive, emotional, physical and social development while disguising it as play."

Plans call for an inclusive new playground unit to open in 2024 at Robinette Park. That project includes the construction of a wheelchair accessible restroom and possibly a splash pad in 2025 or 2026.

Medal of Valor awarded to two Vandalia Police Officers

Two Vandalia Police Officers have been awarded the Medal of Valor for their heroic actions during an apartment fire earlier this year.

On Saturday, May 13, Officers Nelson Clymer and Connor Matlock were dispatched to an apartment building located at 111 Imperial Court on the report of a structure fire. Upon arrival, both officers could see a fire in progress in a ground floor unit. An oxygen tank in the room was burning, with an unresponsive 62-year-old man seated in a chair nearby. Also in the room were two other oxygen tanks.

Officer Matlock immediately entered the room and pulled the resident out of the

building to safety, with Officer Clymer assisting.

Once the resident was a safe distance from the building, Officer Clymer made re-entry into the building to check for anyone else who might have been inside. With heavy smoke building inside the structure, both officers re-entered a short time later to check the units upstairs in the building. The two officers made forced entry into two upstairs units to be sure there were no occupants inside.

Vandalia Police Chief Kurt Althouse commended both officers for their actions that evening.

"Both of these officers demonstrated

Officer Connor Matlock Officer Nelson Clymer

bravery and courage, putting their own lives at risk by running back into the building to alert others and search the apartment units," Althouse said. "They took immediate action in a life-threatening situation and their bravery and exceptional service ultimately saved the life of a Vandalia resident who was inside the burning apartment."

To qualify for a Medal of Valor, an officer must be in a stressful situation and take action at great personal risk to render aid or assistance to another.

New Crime Prevention Officer

Officer Rich Sommer has been assigned to the role of Crime Prevention Officer for the Vandalia Division of Police, it has been announced. Sommer takes over for Sgt. Andy Wehner, who was promoted to the position of Sergeant earlier this year.

The Crime Prevention Officer fills a vital role within the Division of Police as an outreach officer responsible for assisting residents of all ages in crime prevention techniques.

In the school system, the Crime Prevention Officer plays a key role in the Passport to Safety program, which focuses on incoming kindergarten students at all Vandalia schools. The Crime prevention Officer is also a regular visitor at Butler High School, where he discusses issues such as drugs and alcohol.

A major program each year is National Night Out, which offers an opportunity for police and citizens to unite against crime. Some of the activities during National Night Out include children's activities, bicycle rodeo and static display of public safety emergency vehicles and equipment.

Sommer has served a number of roles within the Vandalia Division of Police. He has served as a field trainer for new officers, a juvenile detective, a SWAT team member, and a Watch Supervisor.

Many young people know Officer Sommer through his work as a football coach for the Vandalia-Butler Schools. Sommer was a 7th and 8th Grade Coach for 10 years.

"I've been a member of the Vandalia Division of Police for

22 years, and I've seen the important work done by our Crime Prevention Officer," Sommer said. "I'm excited to have the opportunity to impact my community in such a positive way."

Sommer says there are things you can do to reduce your chance of becoming a victim of crime.

"Many of the reports we take are crimes of opportunity," Sommer explained. "They are crimes committed because the opportunity presented itself. Based on reports taken by the Vandalia Division of Police, here are some tips to help you protect what is yours."

- Lock your car and remove valuables and keys.
- Don't mail personal checks from residential mailboxes.
- In reference to phone and internet scams:
 - If you are not originating the contact, treat it as suspicious.
 - Let unrecognized numbers go to voicemail (if it is important, they will leave a message).
 - Never pay anyone with gift cards.
 - Never wire money from a solicitation.
 - If the caller is pushy, hang up.
 - Never give personal information over the phone or online, unless you initiate the contact and verify who you are sending it to.
 - Law Enforcement will never call you and ask for money.
 - If in doubt, call Vandalia Police at (937) 898-5868. We would rather give guidance than see you as a victim.

If you have any questions contact Crime Prevention Officer Rich Sommer (937) 415-2274 or rsommer@vandaliaohio.org.

(L-R) Councilmember Candice Farst, Mayor Richard Herbst and Councilmember Corey M. Follick discuss downtown Vandalia's business corridor with Michael Stumpf from Place Dynamics.

Vandalia's Downtown Business Corridor Transformation Progressing

The City of Vandalia continues to make progress in transforming Vandalia's downtown business corridor into a more inviting and vibrant section of town.

The 2020 Vision Vandalia Comprehensive Plan identified a desire by City residents and stakeholders to revamp parts of National Road and Dixie Drive and create a more livable city center with amenities to enhance the quality of life for residents and visitors.

The first major step forward took

place in 2022, when the City created the Job Creation and Revitalization Area #1. This action set the framework to begin allocating funds for land acquisition, abatement, right of way improvements, and direct incentives to assist with strategic transformative development initiatives.

Earlier this year, another major step forward occurred when the City sought assistance from third party expertise to identify the types of businesses and potential revitalization incentives most likely to succeed through a formal market

study. Place Dynamics is a consulting firm with experience helping cities create this kind of transformation. In July, the company interviewed city leaders and stakeholders to get a better understanding of the direction this project will take. The results of these interviews will be on the City website later this year.

The next step is to use the findings from this study to leverage available outside funds and conduct a full-fledged Downtown Master Plan to create a road map leading to the changes desired for Vandalia's downtown.

Vandalia Seeks Age-Friendly Community Status

The City of Vandalia is excited to announce that we have been awarded a \$15,000 grant from the DMH-Dayton, Inc. Fund of the Dayton Foundation, on behalf of the MVRPC Institute for Livable and Equitable Communities.

This grant will allow the City to conduct surveys, hold stakeholder meetings, and conduct listening sessions to understand how residents and stakeholders view livability in Vandalia. Our goal is to promote civic engagement and identify areas where we can make strategic investments in

the community. Vandalia will use the grant to move the City towards being an age-friendly community.

An age-friendly community is a place that adapts its services and physical structures to be more inclusive and receptive to the needs of its population to improve their quality of life as they age.

Characteristics of an age-friendly community include supports to: allow residents to stay active connected and engaged; keep neighborhoods safe and close to services and shopping;

ensure residents have the freedom to move around using one's own preferred mode of transport; and access to healthy activities.

Vandalia Takes Stand on Larger Commercial Vehicles

Vandalia Police Chief Kurt Althouse was recently part of a group that travelled to Washington D.C. to speak with lawmakers regarding several federal bills that could bring larger and heavier commercial trucks to our roadways.

Chief Althouse has partnered with a non-profit organization called Coalition Against Bigger Trucks (CABT). The organization was in our nation's capital last month to address federal lawmakers on three bills that would allow commercial trucks to be up to three feet longer, and carry an additional 11,000 pounds in cargo.

"There are a number of concerns with these proposals," Althouse said. "Trucks that are longer and heavier and will have increased inertia travelling down the road and will take longer to stop."

Crashes involving these heavier trucks come with an increase of risk of injury or death.

"Plus, the bigger, heavier vehicles would place more wear and tear on our roads and bridges," Althouse said.

It should also be noted that the three bills under consideration do not come with any federal funding to improve the roadways and bridges that were not built to handle these larger commercial vehicles.

Althouse was part of a group that spoke with the legislative offices of both of Ohio's U.S. Senators and ten Ohio Representatives' offices. All three proposed bills have made it out of committee but have not yet been taken to the floor for a vote.

"I felt like our message was well received," said Althouse. "I believe we have support from our legislators."

The issue of commercial vehicles in Vandalia has been a focal point for a number of years. The City has reduced speed limits, required trucks to stay in the right-hand lane,

prohibited trucks from making some turns within town, and stepped-up enforcement of commercial vehicle regulations, conducted traffic counts, performed safety studies, and conducted signal warrant analyses in an effort to make Vandalia roadways safer. A regional effort is underway to build a "ring road" that would run around the Dayton International Airport, to funnel traffic from larger warehouses west of town to I-75.

"The City takes the concerns of our residents regarding truck traffic very seriously," Althouse said. "This recent trip was another step in making sure that all levels of government understand our commitment to mitigating truck traffic and keeping our local roadways safe."

"We're not anti-truck," Althouse added. "We understand that cargo has to move... it's an essential part of our economy. We just don't think they should be any larger or heavier."

ACTIONS TAKEN:

- Enforcement of commercial motor vehicle traffic laws
- Conduct traffic counts to better understand truck traffic patterns
- Develop alternate routes that move trucks away from center of City
- Develop legislation for thru-truck prohibition
- Prohibiting thru-truck turns at key intersections
- Reduce speed limit on National Road
- Increase speed limit on Airport Access Road
- Build a coalition of like-minded agencies to assist in limiting local commercial truck traffic.

Vandalia Police chief Kurt Althouse recently spent time in our nation's capital to discuss legislation involving large commercial trucks. One of the representatives he spoke with was Ohio Senator J.D. Vance.

Swim School Overview

VRC swim lessons utilize a unique program developed by SwimSafe Pool Management. Using industry best practices, years of experience with well-known national and international lesson programs, and the unique nature of swim lessons, SwimSafe's program is primarily focused on safety and can be explained using the acronym S.A.F.E.

S - Safety First. Age and skill-appropriate safety activities and skills are incorporated into every lesson.

A - Adaptability. Our lessons are designed to be adaptable to the specific needs of the swimmer and the pool environment.

F - Fun. Swim lessons should be fun! That's why we incorporate songs, games, and activities in our program to make it a fun learning environment.

E - Easy to remember, learn, and succeed. There's no need to complicate things. We've designed our program to be a simple and straightforward approach to teach and to learn.

A Michigan-based company with multiple locations in the region is close to completing a project to open an electrical parts distribution center in Vandalia. Kendall Electric, based in Portage, Michigan, is nearing the completion of a 115,000 square-foot facility at 769 Center Drive.

The \$13.5 million structure will open with 45 full-time positions, and the company has plans to add an addition 15 employees within the first 12 months of operation. The facility is expected to serve as the company's Midwest headquarters.

"This is a very nice development for Vandalia," said Micheal Hammes, City Planner. "Kendall Electric is a great company with a strong reputation in the region."

The company considered a number of potential sites before deciding on Vandalia. The Montgomery County's Economic Development/Government Equity (ED/GE) program gave the company a \$150,000 grant to assist in the project, and the Vandalia Development Corporation awarded the project a \$25,000 grant.

Tree Recycling Available at Sports Complex

Even though we don't want to think about it right now, the Holiday Season will come to a close sometime in January.

And when it comes time to put away the ornaments and take down the tree, the City of Vandalia wants you to know that you have some options on how best to dispose of the tree.

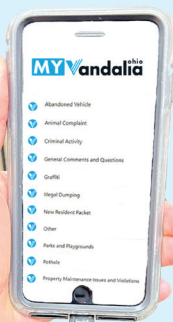

Residents who want to dispose of their Christmas tree in an environmentally responsible way will be glad to know that the City of Vandalia Tree Recycling program will be in effect beginning December 26. Residents are free to bring their Christmas Trees to the Sports

Complex parking lot, where the trees will be ground into a mulch.

"This is a service the City has offered for a number of years, and people appreciate it," said Steve Clark, Director of Parks and Recreation. "The drop-off point is clearly marked, and most people are in and out of the lot in less than a couple of minutes."

The City will be accepting trees through the first two weeks of January.

My Vandalia App Enhances Communication with City

The City of Vandalia's public service app, *My Vandalia*, is making it easy for residents to report issues and check the progress of their concerns. The app is downloadable for free on Google Play and the App Store.

Trash Collection Fee Increase

Vandalia residents will notice an increase in Rumpke trash collection fees for 2024.

The new per-household rate will increase to \$17 per month effective in January, 2024.

Those who live in apartments with dumpster service will have a new rate of \$14.35 per month.

Residents who wish to utilize the carryout service, in which Rumpke crews will carry your trash and

recycling receptacles from the side of your house and return them when empty, will pay \$17 per month PLUS a one-time annual fee of \$136, payable to the City of Vandalia Development and Engineering Services department.

Vandalia Senior Center Travel Program

Bob Reed has been busy finalizing trips for 2024. Bob's office hours will change in November and December. He will be here on

Tuesdays and Thursdays from 9:00 a.m. to noon. Most of the travel flyers will be in the wall holder beginning November 12. You can begin turning in deposit checks by mailing them, dropping them in box #4, or by giving them to Bob. Be sure to fill out the information slip that can be found on p.12 and at the Senior Center to go with your check.

There is one misconception that needs to be cleared up. Some members think that Bob is an employee of the City of Vandalia or Diamond Tours. He is not an employee anywhere. Bob is a member like you who volunteered to coordinate the trips and he does not receive any compensation. If you take a trip with Bob be sure to show him your appreciation so he will want to continue creating and escorting trips.

In 2024, you will need to contact Travel Insured International directly to buy travel insurance. You can contact them by going to www.travelconfident.com or calling them at 1-855-376-2037. You pay for this insurance by credit card. To cover pre-existing conditions, you need to pay for insurance within two weeks of writing your deposit check. If the trip is canceled you will get a refund from the insurance company.

Turn to page 9 and 12 to see all of the trips that have been planned so far.

SPORTS COMPLEX CELEBRATES NEW PLAYGROUND!

An excited crowd attended the second playground ribbon cutting in a month on Saturday, October 21. Last month it was Helke Park; this time it was at the Sports Complex. Jim's Donuts provided donuts and coffee was provided by Warehouse 4. Vandalia's Division of Police and Division of Fire were in attendance along with City Council members Follick and Blakesly and Park Board members Rick Scherer, Cory Follick, and Lenny Maenza participated as well. Ricky Rabbit attended and Communications Manager, Rich Hopkins MC'd the event. City Manager Dan Wendt spoke and led the ribbon cutting countdown. Like the Helke playground, public response about the Sports Complex playground has been outstanding. See pictures on page 15.
