

Cassel Hills Pool Opening Late and Closing Early Guidelines

Opening Late

- If there is lightning/thunder in the area or the temperature is less than 70° at 10:30am the Cassel Hills Pool may open late.
 - We will re-evaluate at 2:30pm for a possible re-opening the facility at 3:30pm.
 - This is the general rule of thumb
 - Should radar or other means suggest opening prior to 3:30pm, (i.e. passing storm and looks to be out of area by 11:30pm), the pool will open as early as possible.

Closing Early

- If there are less than 15 people in the facility, inclement weather, or temperatures below 70°, Cassel Hills Pool may close early.
 - Morning Closing Early
 - Should less than 15 people remain in the facility at 12:30pm, an announcement will be made regarding closing at 1:00pm
 - Depending on the time of day, we may re-open after closing.
 - If the radar suggests poor weather conditions for the remainder of the day, Cassel Hills Pool may stay closed for the remaining part of the day.
 - Evening Closing Early
 - Should inclement weather or low patronage occur in the evening, Cassel Hills Pool may close early.
 - Cassel Hills Pool will not close early due to low patronage (as a general rule of thumb) when there are lessons or classes scheduled in the evening.
 - Cassel Hills Pool may close after inclement weather and will need to re-evaluate each class, lesson, rental, or program independent of the facility's decision.
